Submitter Feedback

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

Only raise property consents for developers who are squeezing as many houses as they can on to properties. It's wrecking the town.

Submitter Feedback

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

user pays these days it is what it is if we have to pay abit more for a swim ok. building and resource consents so be it but the council need to have the right people in these jobs if they consent without doing there homework it can backfire and end up costing us money ie consenting a new build and then decided it needs to be higher than the watertable or the road etc oops my bad that is a very costly mistake to ratepayeers coffers

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

Use the councils resources to generate some income rather than just sell them. Invest in building a new, fun playground for our kids. Whanganui is a family city. Look at upper hut it has 3 huge, modern, playgrounds and a similar population to Whanganui. Re-open Matipo Park. Whanganui is highly lacking in bush walks and forest, focus on reopening maripo park for the public who enjoy hiking and picnics in nature.

Consultation Question

Submitter Feedback

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

The Council resource and building consents are already too high. I think a modest increase in line with inflation could be justified. For the Splash Centre why doesn't the council offer a reduced rate for Community Services Card holders (as we do)? Or may offer reduced rates during school holidays as the patronage would increase therefore offsetting the reduced entry rate.

Consultation Question

Submitter Feedback

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

I am not supporting the fee for the Curbside recycling. I will never use it, it is so easy to go to the recycling place and as I have learned today, it will continue to be there for us. People that cannot go to the station should be able to get an allowance if they cannot afford to pay it and else we will get people put their rubbish in the recycling bin and it will cost as as ratepayers a lot more money to prosecute those people and get rid of the rubbish. Whoever produces a lot of rubbish and or recycling and wants the service for it to be picked up, needs to pay for it. I do not think this is encouraging people to reduce their packaging etc.

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

The fee charged for venues does not reflect the service provided, if you are charging a commercial fee then that level of service is expected. Many providers are choosing not to come to Whanganui or use non council venues, this needs to be explored further. Council must put clear guidance on the waiver of fees for community events as this system to date has been opaque and about who you know at council to get an answer or waiver.

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

Have you compared services provided, charges and funding for the splash with the likes of Palmerston North and New Plymouth pools? Why are we paying more for less of a service than these centres? With the closure of WEast pool could we develop outside pools/water play at the splash? Also can we redevelop toe recreational side of the splash so there is more variety for children of all ages? New Plymouth has some great examples so does Feilding.

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

Fees for building and resource consents are already too high. Instead, greater efficiency from those in charge of carrying out these services would be very easily achieved, and a far better alternative. There is no sense in increasing development costs and hindering progress in the city.

Do you have any comments about the proposed Fees & Charges 2024-25?

I believe ever revenue generating area should see increases between 8-10%, or if low cost services like Splash centre then rounding up \$0.50c or \$1 per adult etc. also finding other revenue streams as donation incomes, like the fountain at Vrginia Lake - gold coin donations, & fees for facillites & asset use.

Fees and Charges 2024-25

Do you have any comments about the proposed Fees & Charges 2024-25?

Whanganui already has higher rates across the board in comparison to other regions and for what seems a lot less for it. It is critical that the essential services for all house holds have access to which will I turn save money and less finical impact should be felt on households to try and cover those essential services

Comments about Proposed Fees and Charges 2024-2025.

The 6 percent proposed increase is less than the proposed general rates increase of 10.6%.

In the Revenue and Financial Policy 2022, the document makes comments that some fees may be funded by ratepayers but that Council still makes the majority contribution with the exception of Parking Services. Parking Services not only cover their operation costs but contribute to General Revenue.

Serious consideration needs to be made to look at other business units and the services that they provide. Building Control, for example, provides a structure that ensures new builds and additions etc comply with the 2004 Building Act. Users in this space should be contributing **more** to ensure that this business unit increases its percentage of self-funding operations.

Most ratepayers will not be impacted with these increased fees unless they are undertaking a development of sorts. As such, the fees that are charged must cover the majority of the costs borne by the Council such as vehicles, time examining documents submitted, correspondence, inspection and consultation time costs.

In the private sector, not recognising true cost drivers results in the business going broke very quickly. For example, a business that charges clients out at a rate that covers wages only will not have income to pay for items such as rent and vehicle expenses etc.

I am not advocating for full cost recovery but the 6% proposed leaves the business units still heavily reliant on General Rates funded directly by Whanganui taxpayers.

In the Parking Bylaw and Controls consultation document, the fee increases proposed are to increase between 50% to 100%, albeit off a small cost base.

Whanganui ratepayers and residents can choose to pay for building and parking services, as they can avoid paying these fees by walking or cycling to town or by not spend large amounts of money on large renovation projects (which in turn create costs for Council).

These same ratepayers though, cannot avoid the dreaded envelope stating that their rates bill has gone up by 10.6% in the current year and is further proposed to increase by 8% in each of the next 2 years, for example.

To demonstrate the effect of cumulative rate increases at the proposed levels, a current annual rate bill of \$3,000 per annum will increase to \$3,318 in 2024/25 then \$3,583 in 2025/26 and \$3,870 in 2027/28 which works out at an extra \$870.12 from 2023-24. Where will Whanganui Ratepayers/Renters find this increase in funds when we already have identified that Whanganui's demographics consists of lower than average income earners in NZ and a higher proportion of over 65s who are likely to have a fixed income and will struggle trying to pay an extra \$870 per annum (or an extra \$17 per week)?

In essence, the Council must commit to significantly increasing non-rates revenue to lessen the burden on Ratepayers on lower or fixed incomes. This may be achieved in 2 main ways: by increasing fees and reducing costs which is what I am advocating.

Increasing fees to building consents will discourage building work. I know costs have gone up, mainly from regulation changes from central Government and for covering risks associated with building inspections. This is too complex without having to dig very deeply into the issue. My challenge to Council is to think outside the box (take off the "black hats" and come up with other approaches and push back on Government regulations.

Proposed Fees & Charges 2024/25

I agree with the 6% increase in the proposed fees for 2024/25 as outlined under Venues & Events – Cooks Gardens Event Centre, however, I do not believe that the charges shown as being **the Current fees** are correct and therefore the **2024/25 Proposed fees are incorrect.**

Since Cooks Gardens was taken back in-house by the Council on 1 July 2017 the Council has not set any charges or increase in charges for Cooks Gardens.

Therefore, the community and the users of Cooks Gardens have not been consulted on any increase as required by section 150 of the Local Government Act 2002.

However, from 2017 the Council has increased these charges each year by amounts ranging from 60% to over 100% on the year before. Not just for athletics but for other major users of the ground.

What was charged in 2018 of \$347 has increased to \$1,502 in 2024 for the same event.

Under Cooks Gardens Event Centre, I would recommend that the charges for the arena (track and rugby field), Corporate boxes, Media room should be shown separately from those charged for the Event Centre.

The Community Rate and Private Rate are shown, under Current Fee and Proposed Fee headings, ranging as Full Day – from \$115 - \$2,250. These rates should be itemised so that the users/ community are fully informed on what they are getting, and everyone is treated equally. A range from \$115 to \$2,250 is too great and not open and transparent.

I don't believe that these charges will help Cooks Gardens to be operationally sound and viable, but will continue the decline in usage, like other grounds around the country eg. North Harbour stadium. The focus has to be on building the hireage base and the frequency of use.

I think the Council should be looking outside the square and consider all options for the running of Cooks Gardens. Sports facilities and sports in general are based around volunteers. Clubs/organisations can draw on their membership to operate the facilities at Cooks Gardens.

Like your Partnerships with Iwi, a partnership between Council, Athletics Whanganui, Whanganui Rugby Football Union and Cycling Whanganui.

We would like to open discussions with the Council and its officers to add value to the wonderful facility we have at Cooks Gardens for the benefit of our community.

Red tape is supposed to be being reduced, which should reduce costs not increase them. Council has cost ratepayers a huge amount of money with unlawful sackings which have cost us massive lawyer bills..Kept very hush hush though. Maybe this needs to be brought to the publics attention. This money has been absolutely wasted and would have been better spent upgrading the pool and keeping the aviary open. The costs would have covered this

Fees and Charges should always be measured against a range of other factors. Whether they make sense for the time frame. Whether they're fit for purpose. Whether they're too much or too little. And if there are other ways to get the same outcomes from increasing fees and charges.

Do you have any comments about the proposed Fees & Charges 2024-25?

Yes I don't agree with the increase in prices, this will limit the time people spend in town and push more people towards online shopping which in my view isn't great for the local shops. I rent a council car park and don't agree with a \$10 per week increase, this is a very high increase and i imagine a lot of people will give up their rental spaces. I don't agree with gold card users getting extra free time on a saturday, they have all week to complete their shopping and these parks should be reserved for people in employment, i don't think its fair other paying carpark users are having to subsidise goldcard users getting even more time.

People are struggling and everything is going up in price, you want to put up rates and fees, increasing the pressure on people, it impacts low income people the most so I hope you are considering that when you decide what fees to increase. People will have less disposable income to spend in local businesses. People get desperate and crime increases, all of which impacts our community.
