Consultation Question	Submitter Feedback
-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: I suspect Maraes are 100% applicable to this policy then with the rates remission they should be able to contribute some of this to the generators and water tanks... I don't think there should be any rates remissions in any circumstance.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: I agree with the idea of rates remission, however I consider the information supplied focuses more on ethnicity rather than financial need.

Consultation Question	Submitter Feedback
-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: I agree with Rates Remission in principle. The policy details supplied are unfair as they are based on ethnicity and not financial hardship. As a Kaumatua, I find this policy deeply insulting and racist.

Consultation Question	Submitter Feedback
-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: We question the feasibility of the proposed “Remission of the targeted rate for Council’s kerbside recycling and food scraps service”. It would be rare for the owner of a multi-tenant commercial property to provide this service with individual businesses instead dealing with their own recycling and (in case of food businesses) food scraps. So most properties occupied by a mix of small businesses wouldn’t qualify. In the rare case they did qualify this presumes the landlord would go to the effort of claiming rebate they receive no benefit from.

Consultation Question	Submitter Feedback
-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: If you are making a change to the rates remission policy, it should be aligned with other councils that allow registered charities to apply for a rates remission if it is OWNED or OCCUPIED. WDC policy only acknowledges owned. Many charitable organisations are in traditional leases where they are responsible for the OPEX costs including rates. So where rates increase, so do their costs and their ability to provide wellbeing services for the community. Many of these charities are doing this due to poor wellbeing outcomes from under funding by central and local government and income poverty which will only increase with ongoing cost of living crisis and inflation. Palmerston North City Council, South Taranaki District Council, Thames-Coromandel District Council, Kapiti District Council, Marlborough District Council, Hastings District Council, New Plymouth District Council, Queenstown Lakes District Council, Manawatu District Council to name a few allow community remission for those who occupy a building and can prove they pay rates through OPEX costs. Very few charities own their own buildings. Rates remissions have a positive impact on community orgs to have more funding to do their activities and reduce reliance on other funding sources, such as council.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: Rates postponement and rates remission would be a great idea for everybody that pays rates. I know of pensioners are still working part time just to be able to afford their rates. That is really sad and unfair. imagine your Nanna still having to work part time to cover the rates bill and you then go and throw it all away on consultants fees or a road crossing.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: I already find the Splash Centre entry prohibitive. Visiting Wellington with children was wonderful as there was no charge for under 5s and any adult supervising a child under the age of 8 was free too. Its frustrating that i need to pay entry when I am only there to supervise /support my child. Its not like I can go off and swim lengths in the lane or use the spa. could Whanganui's prices please come in line with Wellingtons? I think this would go a long way to addressing the lack of water saftey for our children.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: The more people paying rates the less it costs us as a whole and the more we can do. If there is a genuine reason why someone cannot afford their rates I have no problem. Allowing discounts for not using particular services or based on my ethnicity would have me opting out of lots of things I don't use and might be a slippery slope that creates additional overhead for council.

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: Not specifically. But, a side point. The council should abandon curbside recycling - a vanity project with very little Green benefits. Glass and limited cardboard is recycled in NZ. A very limited amount of plastic is recycled. Most is put into diesel trucks, shipped to overseas port with oil fired ships to countries who process it in factories run on Coal. We are adding to green house gas not reducing it.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: Maori freehold land should have reduced rates in some form or fashion, as it is part of Treaty settlements and the spirit of the Treaty.

Consultation Question	Submitter Feedback
-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: it was difficult to understand the exact nature and extent of the changes in respect of maori freehold land policies. NTT understands the complexity surrounding maori freehold land particularly those with no administration or governance. Often the beneficiaries are unaware of the financial commitments on whenua particularly where there is limited to no financial return or activity occurring on the whenua.

-----------------------	--------------------

Rates Postponement, Rates Remission and Rates Remission on Māori Freehold Land policies

Do you have any comments about the proposed changes to the Rates Postponement, Rates Remission, and Rates Remission on Māori Freehold Land policies?

Submitter Comments: By allowing remission and postponement you are only putting pressure on other rate payers to meet your funding needs. Given the increases this is not a sustainable policy.
