When naming new roads, which of the following proposals do you support?	<p><b>Option 1</b></p> <p><b>Developer submits new road names</b></p> <p>This would mean the developer is invited to submit up to three names in order of preference. This must include reasons for the suggestions, as well as details of any engagement undertaken (pg. 6).</p>
<b>Please indicate your level of agreement for options</b>	
<p>When naming a new road (pg. 7), a name suggested can reflect an established theme in the area or one or more of the following:</p> <ul style="list-style-type: none"> <li>• Traditional or appropriate Maori name</li> <li>• Historical person or event</li> <li>• Significant geographical or topographical features</li> <li>• Personal name for special service</li> </ul>	Agree
The Council's approach to <b>naming of previously unformed roads</b> (pg. 8).	Neither agree nor disagree
The Council's approach to <b>re-naming an existing road</b> (pp. 8-9).	Disagree
Overall, do you generally agree with the contents of the proposed policy?	Agree
Further comments	It would be nice to acknowledge the earlier inhabitants of NZ by naming some roads for them. Pre-maori settlers, that is, who are almost forgotten.

Further comments	<p>I believe forcing a name on a developer based on ethnic or some other reason arbitrarily deemed suitable is a violation of ones human rights. Not only is the developer spending their money on the development but may also be required to pay development levies for infrastructure upgrades whilst receiving nothing back from the council. The development is also bringing money and jobs to the area and raising the standard of housing so should be supported. I say let the</p>

Further comments	<p>Developers should not be allowed to have non public input into new road naming. The developer could / will use personal preferences / investors / friends as naming options - Look at the Aramoho subdivision (Delhi, Bombay, Lucknow, Madras, Burmah) all because I understand the subdivision surveyor used to be a surveyor in India!!! These streets need to be renamed to reflect the city and district they are in not, places in India.</p>

Dear WDC,

Sorry i don't have time to chase through computer files to find submission forms, but I would like to make one point that I'd like you to pass on to the submission people.

I choose option three so that it is fair to all concerned, especially the Maori people.

I have a strong suspicion that very few developers are Maori and it's important that Maori names are given equal priority in the selection process.

Regards,

Janis Cusack

The Council's approach to <b>re-naming an existing road</b> (pp. 8-9).	Agree
Overall, do you generally agree with the contents of the proposed policy?	Neither agree nor disagree
Further comments	<p>I prefer Option 1. It would open a can of worms to have the public putting their Street Names forward. Historically I have found Option 1 (inconjunction with Council input) has worked for all developments in Wanganui. I see no need to change the existing policy for future developments. Sometimes developments are very difficult and demanding working with Council and Legislation. Therefore for a positive outcome, it is crucial that the Developer and Council work</p>

While I don't wish to make a formal submission, I do feel that Council should/could acknowledge citizens who have given service to the community\* in naming streets. And I also feel that developers ought to have some input, say with family names, since they are footing the bill! As long as a name is not offensive: so long as a person who's name has been put forward agrees (if they are living, of course....) I am happy with such choices.

(\* But as the recipient of a civic honour in another city, I wouldn't have allowed my name to go forward there!!!!)

Tena koutou,

I'm not concerned how the street numbers are allocated etc. The naming however is a totally different situation. Firmly believe that iwi need to have control over the naming of any new street / suburbs and so forth. As it stands the policy does not allow for this.
