### **Overview**

As part of a mitigation agreement signed between Genesis Energy, the Ruapehu District Council and Whanganui District Council in 2002 the Whanganui River Enhancement Charitable Trust was formed. The Trust aims to promote and enhance the quality of the waters and the catchment of the Whanganui River. One objective is to provide funds for river enhancement projects (social, and environmental) and this application form relates to this objective. The Trust includes representatives from each of the founding organisations who together assess the applications against the Trust objective and application criteria.

### **Objective**

- Promote river enhancement projects (social, and environmental) within the Whanganui River catchment.

### **Assistance Available**

As outlined in the Trust's 3-year Strategic Plan (2024-26), a total of \$30,000 is available for projects in the Ruapehu District Council area and a total of \$30,000 is available for projects within the Whanganui District Council area. This funding is inclusive of GST where applicable. The Trust can give consideration to larger multi year grants if a specific project is of significant merit.

### **Application Criteria**

1. Projects must relate to the use and enjoyment of the Whanganui River or tributaries.
2. Projects must be of tangible and clear benefit to a wide component of the district community.
3. Priority will be given to projects where labour is provided voluntarily or wages or salary is funded from elsewhere.
4. Project proposals seeking funding for non-fixed assets or items (eg., tools, laptops, wheel barrows, life-jackets, etc) will not be considered.
5. Preference will be given to those proposals that have the support of other parties/organisations.
6. Any development project proposal (wharfs, jetties, toilets, etc) on the Whanganui River will have sought (and include) feedback from the respective Mana Whenua, Territorial Authority (Ruapehu District Council or Whanganui District Council); Horizons Regional Council; and/or the Department of Conservation as relevant to their application.
7. If successful, the applicant will provide written feedback to the Trust on the progress and outcome of their proposal and may be asked to present this at a Trust meeting.
8. All funding allocated must be utilised within an agreed timeframe (usually within 12 months).
9. Any publication of material relating to the project should include an acknowledgement of support from the Trust. The Trust may require that a moderate sign is erected at the project site to further promote the Trust's activities. The Trust will provide the signs.
