Postal address	
Daytime phone number	
Organisation name	
Your role	
Have you submitted to the Whanganui District Council before?	Yes
Gender	
Age group	
Ethnicity	
Location	Whanganui East (Williams Domain, Wembley Park, Kowhai Park)
Would you be interested in being involved in further consultation	Yes

opportunities with Council?	
KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Disagree
Given that you do not agree with roofing the velodrome what options would you support?	Decommission
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Disagree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Strongly disagree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Neither agree nor disagree
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit	

(page 36 of the Consultation Document)	Neither agree nor disagree
2. Stormwater rating changes (page 36 of the Consultation Document)	Agree
3. Fordell water supply rates (page 37 of the Consultation Document)	Agree
4. Marybank wastewater rates (page 37 of the Consultation Document)	Agree
5. Stormwater separation loans (page 37 of the Consultation Document)	Agree
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Disagree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Strongly agree
Do you have any further comments to make?	Some of the questions require a definitive yes/no response but submitters may have alternative comments to support/reject an option. There is nowhere in this questionnaire for this. Some of the information in the long term plan is scant on detail and reads more like a promotional document than an objective and unbiased report.
Supporting documents	File(s) not provided

I would like to speak in support of my submission	No
Submission method	Online

	Whanganui badly needs a more thorough plan to develop our children and young families. To make the city more viable and attractive for talents and young families, we need our kids to feel proud of Whanganui compared to our neighbouring cities. Below are my suggestions: 1. Better and family friendly facilities can be built at the beach for the young and old. More family friendly fun days can be organised at our gorgeous beaches. 2. Regional Museum could have more activities and workshops for different age groups. Now most are focused on art and craft. How about some Waka wood craft or science lectures on the ginormous bones? The displays can be more intellectually stimulating. 3. The Sarjeant at the Quay can have more

Do you have any further comments to make?	<p>children's programmes over the weekend while we promote the Open Studio every year. Don't we want to generate more Whanganui made renowned artists? 4. Can we have more up to date fun programmes teaching coding, STEAM, 3D printing and kids and teen magazines at the community centre and libraries? Yes, we do love storytelling and music for the babies but how about the ones who are older? 5. Better sports facilities like indoor rock climbing walls can pull our kids away from drugs and criminal activities. We wish the council, apart from dealing with the flood and waste water, invest in initiatives and education programme for kids and young families. We need much more than just a paint at the Kowhai Park or another playground for kids. Our families and kids deserve to enjoy the same quality of life as the kids at Palmerston North and New Plymouth. If not, talents and young people will simply choose to leave once they have better options.</p>

opportunities with Council?	
KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Disagree
Given that you do not agree with roofing the velodrome what options would you support?	Multi-purpose
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Neither agree nor disagree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Neither agree nor disagree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Agree
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit	

(page 36 of the Consultation Document)	Neither agree nor disagree
2. Stormwater rating changes (page 36 of the Consultation Document)	Neither agree nor disagree
3. Fordell water supply rates (page 37 of the Consultation Document)	Neither agree nor disagree
4. Marybank wastewater rates (page 37 of the Consultation Document)	Neither agree nor disagree
5. Stormwater separation loans (page 37 of the Consultation Document)	Neither agree nor disagree
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Neither agree nor disagree
Do you have any further comments to make?	The velodrome is an asset too valuable to be left to deteriorate. It will contribute to assisting (more) people to keep moving, as opposed to the obsession with weight and obesity.

	The Velodrome should be all or nothing. A mid range option leaves for a non comital for the community other than those directly related to the sport. A multi purpose venue (noting the commercial option for concerts is not overly a common sense option), with the right central floor space could host a plethora of sports. Speed skating, Roller hockey, football/futsal, basket ball tournaments, netball tournaments, tennis finals. These can be major hosting events. For example, Roller hockey - most of the NZ team is Whanganui based (at each age and gender category), yet Whanganui roller

Do you have any further comments to make?

rink is too small to host matches. Hence losing out on national and international tournaments. Another example, please attend a Wembly park Saturday football game, to see how poor the facilities are. Wouldn't it be great to invest in grass roots? Reward the sports at a youth level, right the way through with a venue that fits. Linked in with Whanganui DHB, ACC and private practices for Physio, Sensory recovery programs is a viable business case. Whether this is sport or recovery based. The buy in from Netball at all levels and ages is a great opportunity to reward a growing/established sport to excel. Consider cost considerations and from a monopoly aspect of an aging tin like jubilee stadium which offers an empty vessel of a venue. Rental can be up to and beyond \$2000. A city like no other should perhaps walk the talk in the facilities that it can offer. This is bigger than Cycling, this is a community and an economic draw. The coastal regeneration. Accounting for properties where people have invested and bought along the coast is and should be covered by their insurance providers or at their own expense. This is not for rate payers to supplement. This is not a new process. That said, managing the north mole, should involve a wide range of Iwi consultation along with Iwi funding to supplement delivery. Sand banks, and scrub/vegetation, spraying and weeding is not a a way to invest in the coast line. Offering a business element to it is. What about a launch ramp and boat wash at the Castlecliff beach, offer fishing pontoons, let iwi and the wider community use our coastline which should be fit for purpose. Utilising the driftwood. Collect it, move it, structure it, turn it into art, sculpture it. A surf life saving building which should be commercialised to offer something for the community should come first. I would have expected a wider range of ideas to come out of a ten year plan.

Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
	I strongly oppose the proposed stormwater rating changes for the following reasons: 1. As you outline in your letter, the properties in question, including Simon Street, were zoned Rural Lifestyle as they were outside the urban boundary. As such, these properties were, at the time, required to have soak pits in place to take excess water away. These properties, therefore, are NOT connected to the stormwater network and therefore cannot be expected to pay Council stormwater charges. 2. The Council, required properties in this area to have soak pits. , therefore keeping stormwater on site. There was a cost to owners to have these supplied and installed, rather than just running stormwater to the curb. The cost was

Do you have any further comments to make?	<p>part of our building contract. We have, therefore already paid our stormwater charges. 3. As you also state in your letter, the properties in question "do not currently meet the definition of a serviceable property for stormwater purposes." If we do not meet the definition of "a serviceable property", we cannot be expected to pay Council stormwater rates. 4. You state that "over time the zoning for the area has changed." That these properties are "now inside the urban boundary." Boundaries change. At some stage, many Wanganui properties would have been "defined" as rural. It is unreasonable to charge homeowners for definition changes as they occur. 5. You also state in your letter that the stormwater on driveways, paths and other surfaced area ends up in Councils stormwater system. The purpose of the required soak pits was to ensure that excess water drained away via the soak pits. Therefore no excess water ends up in the council system. Even after all the recent heavy rain, there has been no flooding in our streets that would find its way into the Council system, which shows the soak pits serve their purpose. 6. The proposed increased rate for the first year is, obviously, a backdated rates charge. Currently, the definition has not changed; we cannot pay for something that is not in effect. This charge is unreasonable as we have already paid for stormwater to be kept onsite. I strongly object to paying additional rates for a service that is not applicable to us.</p>

Postal address	22 Simon Street
Daytime phone number	+642108453261
Organisation name	
Your role	
Have you submitted to the Whanganui District Council before?	Yes
Gender	Female
Age group	60 years or over
Ethnicity	NZ European
Location	Springvale (Springvale West, Springvale East, Mosston)
Would you be interested in being involved in further consultation opportunities with Council?	Yes

KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Strongly disagree
Given that you do not agree with roofing the velodrome what options would you support?	Decommission
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	
WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	

Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	Strongly disagree
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
Do you have any further comments to make?	I would like to ask the council to spend money on improvements that benefit ALL residents not a few. A roof over the velodrome is not necessary and money needs to be spend on improving the quality of water in Wanganui. It has to be one of, if not the, worst in the country. Rubbish collection would also be more importnat to the city than a roof. As for charging stormwater charges for people who are not connected to the stormwater system, this is a disgrace. Especially when they have, at the councils request, paid in

	their building costs to have soak pits which the council determined would be adequate, and certainly are adequate. A huge first year cost is also clearly not proportioned to the length of time that houses have been in the area (we built our only two years ago). Charges cannot be backdated which this charge clearly is.

WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and	

Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
Do you have any further comments to make?	I would like to see the velodrome demolished. Any proposed development costs will surely rise well above both projected figures as the nice to haves and overlooked items are added. Look at the Bulls Community Hall. The proposed operating costs are too high for such a limited-use facility. The money would be better spent on the well-patronised Davis Library extension and facilities.

3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Disagree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Neither agree nor disagree
WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit	

(page 36 of the Consultation Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly disagree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Strongly disagree
Do you have any further comments to make?	The velodrome should be demolished unless it can run and financially sustain itself without ratepayers footing the bill. Nowhere near enough locals use it for the projected costs to be viable

Ethnicity	
Location	Gonville (Balgownie, Tawhero, Gonville South, Gonville East, Gonville West)
Would you be interested in being	

involved in further consultation opportunities with Council?	Yes
KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Strongly disagree
Given that you do not agree with roofing the velodrome what options would you support?	Decommission
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Agree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Strongly agree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Strongly agree
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and	

Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	Agree
2. Stormwater rating changes (page 36 of the Consultation Document)	Neither agree nor disagree

Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Disagree
Do you have any further comments to make?	Our rates are already high in comparison to other regions. All of these increases for low income earners adds extra stress and less food for our families. The increases seem to be to cover the cost for areas that are only used by a few instead of being what is the best interests for the people in the city. All sports people pay for their own equipment or to upkeep the grounds they are using, cyclists should be the same.

Would you be interested in being involved in further consultation opportunities with Council?	No

KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Strongly agree
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	
WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	

Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
	I'm a Wellington ratepayer so my submission may be officially excluded. But I thought it's important to record my views and to record that a good number of Wgtn cyclists have and want to use your velodrome. Kids, senior and masters ages, male and female. Even without a roof we often come up every 4-6 weeks during the season, we enjoy the big annual carnival, its a great lead in to Nationals to get experience riding a 250m wooden track compared to our 333m concrete track which was recently resurfaced. Nationals will only ever be held indoors so that's only Cambridge and Invercargill. To race Nationals we must get experience on a 250m

Do you have any further comments to make?	wooden track. In the last few years I was disappointed when key events were cancelled due to the weather. I'm not sure there is a large number of inline skaters. I can't comment in detail if you should go for the full multi-purpose stadium, I'd leave that to your own analysis and I don't know what else you have. But it could open doors. I'd encourage ratepayers and Councillors to look at what happens at Cambridge with less abled (elderly, mentally / physically disabled) using their facility at off peak times, using the infield to ride safe 3 wheeled bikes. One woman told me she would be dead without doing this physical activity as she isn't able to do lots of things as has multiple medical problems.

Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Agree
Do you have any further comments to make?	My wife and I are recent retirees and as a result both joined the library. Of many of the things we do and have done in this great city, this would rank among the best. The book stock is extensive, the staff are welcoming but obviously more space is needed. We believe extending the floor space is one of the most sensible components of the council's 10-year plan. We both fully support the concept.

Submission: Long-Term Plan 2021 - 2031

Thank you for your submission. We appreciate you participating in the consultation process on this issue. This email is a formal acknowledgement of Whanganui District Council's receipt of your submission. Please print a copy of this page for your records.

Reference number	167041052215717
First name	Krystal
Last name	Hartley
Email address	
Postal address	
Daytime phone number	
Organisation name	
Your role	
Have you submitted to the Whanganui District Council before?	Yes
Gender	
Age group	
Ethnicity	
Location	Gonville (Balgownie, Tawhero, Gonville South, Gonville East, Gonville West)
Would you be interested in being	

involved in further consultation opportunities with Council?	No
KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Disagree
Given that you do not agree with roofing the velodrome what options would you support?	Keep as is, with function centre and use as an event space. Make it more accessible or desirable to the general public.
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Neither agree nor disagree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Strongly agree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Strongly agree
WHO PAYS? Our proposed funding approach for:	

1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	Neither agree nor disagree
2. Stormwater rating changes (page 36 of the Consultation Document)	Agree
3. Fordell water supply rates (page 37 of the Consultation Document)	Neither agree nor disagree
4. Marybank wastewater rates (page 37 of the Consultation Document)	Neither agree nor disagree
5. Stormwater separation loans (page 37 of the Consultation Document)	Disagree
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Agree
Do you have any further comments to make?	As rate payers we already pay some of the highest rates in the country and we don't even have suitable drinking water, or curb side recycling. How much would Whanganui benefit from a covered velodrome? Not the \$30+ million it would cost. We are a heritage town, full of Victorian charm....we need to focus on making ourselves a tourist destination, put that money into the port and bring industry

	into Whanganui. With Covid leaning people can't spend their money on overseas vacations - we should be focusing on making Whanganui a holiday destination. That will bring in revenue to the area, and then we could look forward to projects.

FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Neither agree nor disagree
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Disagree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Agree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Strongly agree
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	Neither agree nor disagree

2. Stormwater rating changes (page 36 of the Consultation Document)	Neither agree nor disagree
3. Fordell water supply rates (page 37 of the Consultation Document)	Neither agree nor disagree
4. Marybank wastewater rates (page 37 of the Consultation Document)	Neither agree nor disagree
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Strongly agree
Do you have any further comments to make?

Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Neither agree nor disagree
Do you have any further comments to make?	The youth need more in whanganui. A new skate park would bring skaters and the amazing skating community with them. All our professional skaters are from oakura, feilding, palmerston north and mangawhai, where the new bowls are. My son and his mates compete in national events and are gaining points for this olympic sport. But why do they have to travel to these other bowls to practice? Castlecliff bowl is horrendous. Let's host national events in a new skate bowl and put whanganui and our budding young

	sporting talent on the map.

KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Disagree
<p>Given that you do not agree with roofing the velodrome what options would you support?</p>	<p>If the current track has lasted 25 years uncovered, why can't a replacement track be laid to last another two decades at a presumably much lower cost than roofing the replacement track. While this is sort of wasteful, it is much more affordable while not losing an existing piece of infrastructure that would come from decommissioning. I think if the track were resurfaced every 20 years you could potentially get about two centuries use out of the 'existing' velodrome for about the same price as roofing it. Once roofed, there would still be ongoing maintenance costs for the track anyway. Each time the track needed a full replacement, the situation could be reassessed as it is impossible to predict how much the population will change in the coming decades and what would become affordable for a larger rates base.</p>
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund	

up to \$1.9M (page 20 of the Consultation Document)	
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)

Organisation name	
Your role	
Have you submitted to the Whanganui District Council before?	No
Gender	
Age group	
Ethnicity	
Location	Whanganui East (Williams Domain, Wembley Park, Kowhai Park)
Would you be interested in being involved in further consultation opportunities with Council?	No

KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Disagree
Given that you do not agree with roofing the velodrome what options would you support?	Decommission
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Strongly agree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Neither agree nor disagree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Strongly agree
WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	

Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Neither agree nor disagree
Do you have any further comments to make?	I think we need to connect cycle lanes better with the main traffic especially near roundabouts. Especially the one by the cobham bridge and the one onto the dublin st bridge by the bp.

opportunities with Council?	
KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	Strongly disagree
Given that you do not agree with roofing the velodrome what options would you support?	Decommission
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Agree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	Strongly agree
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	Agree
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit	

(page 36 of the Consultation Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Agree

Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly disagree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Strongly disagree
Do you have any further comments to make?	The purpose of council is to provide essential services to the community. Any other projects that groups desire should be financed by those that benefit.

I would like to speak in support of my submission	No
Submission method	Online

The business of councils is to provide essential services to those living in their area. Other things that the community desire should be provided by those that want them. Not the whole community.

Refuse collection and water are funded by charges, so should be no rates funding. Other essential services do need to be funded. And if council stopped funding non essential projects rates could be reduced substantially.

From that lower rate level I have no objection to annual raises in line with inflation. To say that rates need to rise because of new infrastructure for new housing development is incorrect, as the developers pay development levies, and the extra houses bring in more rate revenue.

WHO PAYS?	
Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	

Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	
3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Strongly agree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Strongly agree
Do you have any further comments to make?	I urge that the extension of the Davis Library goes ahead. It is a small budget when the number of users is considered. I have voted for the demolition of the velodrome because i feel that the numbers likely to benefit are very low. It is also an elite sport to my mind and not one a lot of young people look to. Im in favour of spaces and support for youth They are our future i know thats a cliché but its the truth.

Whanganui District Council - 2021-2031 Long Term Plan

This submission is prepared on behalf of Mataiwi Marae. Mataiwi Marae is a part of Ngā Poutama-nui-a-Awa which is a recognised Iwi. Our rohe is primarily in the Whanganui District by the Whanganui River but also includes some sites within the township. For more understanding of our rohe and areas of interest we advise that you read the Waitangi Tribunal Land Report.

Our comments are discussed below. We do not wish to be heard in respect of our submission but remain available to participate in decision-making processes.

Section 2 – Youth places and spaces

We approve your actioning of He Irere and wish to be a part of the future consultation and development of Māori youth places and spaces under the document. We would potentially like to see more youth involved with the marae. Full support of Option 1.

Section 4 – Development and implementation of a costal plan

We support option 1 – develop and implement a costal plan. We also want to reiterate that the coast is part of our rohe and we should be involved not only in the decision making and implementation, but also used for our traditional knowledge of the area and our role as guardians in terms of ongoing monitoring and providing feedback.

Key projects feedback

Community Housing – We support Council in providing community housing and wish to be involved in the investment plan. We also note that Council has added \$4.2 million for work in the housing area and have made comments about investing. As we are looking to build more papakainga housing there is potentially options to work together in the future.

Town Centre Regeneration – We support the continued implementation of this strategy but would like to be more involved in how the money is allocated and potentially see events and projects take on a greater tangata whenua influence. The Town Centre is very Euro-centric and this ongoing regeneration project is a chance to re-balance the narrative of this landscape.

General Comments

Page 28 of the consultation document contains a graphic of the spending for the next ten years of \$1.1 billion. The graphic is meant to be of the district, however our part of the district (the middle reaches of the Whanganui River and national park) is missing. This is a concerning oversight.

We are looking to enhance our working relationship with the Council in regards to decision making, accountability, monitoring and future developments.

Submission: Long-Term Plan 2021 - 2031

Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	Neither agree nor disagree
2. Stormwater rating changes (page 36 of the Consultation Document)	Agree
3. Fordell water supply rates (page 37 of the Consultation Document)	Neither agree nor disagree
4. Marybank wastewater rates (page 37 of the Consultation Document)	Neither agree nor disagree
5. Stormwater separation loans (page 37 of the Consultation Document)	Agree
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	Neither agree nor disagree
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	Neither agree nor disagree
Do you have any further comments to make?	With regard to Velodrome, this is another white elephant. You are expecting rate payers who cannot afford increases to pay for an elite few who would use it. There is absolutely no benefit to residential ratepayers, businesses may gain but residential would be subsidizing them. Elected Councillors are supposed to be looking after the interests of ratepayers and the city not promoting their own pet projects as some are doing. we

	have been down this path before with other white elephants, soft water to name one. As a general view with storm water this should be a fixed cost to each property, it is totally unfair that one ratepayer pays considerably more just because of property value. The only variance really is how much roof area is directing storm water to the system. Perhaps rating this on roof area would be more equitable.

KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
Do you have any further comments to make?	A new International level skate bowl with pool coping would bring the massive skate community here. Plus great for bikes and scooters

Submission: Long-Term Plan 2021 - 2031

Thank you for your submission. We appreciate you participating in the consultation process on this issue. This email is a formal acknowledgement of Whanganui District Council's receipt of your submission. Please print a copy of this page for your records.

Reference number	753041153214819
First name	Connor
Last name	Hawley
Email address	
Postal address	
Daytime phone number	
Organisation name	
Your role	
Have you submitted to the Whanganui District Council before?	
Gender	
Age group	
Ethnicity	
Location	
Would you be interested in being involved in further consultation opportunities with Council?	No

KEY ISSUES	
FOUR IMPORTANT ISSUES – HELP US DECIDE	
1. Whanganui Velodrome Project Roofed Velodrome: roof over the velodrome, expected to cost in the order of \$20M (range \$18.7M to \$22.0M). (page 16 of the Consultation Document)	
2. Development of Youth Places and Spaces Operating costs of \$10,000 in year 1 and then \$46,000 on average thereafter; Capital cost of \$386,000 in year 2 (page 18 of the Consultation Document)	Strongly agree
3. Extend the Davis Library Budgeted to cost \$2.84M across years 2 – 4, with construction occurring in year 4. \$920k of grant funding is anticipated as part of the funding of this project, leaving the council to fund up to \$1.9M (page 20 of the Consultation Document)	
4. Development and implementation of a coastal plan for Whanganui District Implementation of the Coastal Plan is budgeted at \$1.1M across years 2 to 4, and another \$1.3M across years 8 to 10. (page 22 of the Consultation Document)	
WHO PAYS? Our proposed funding approach for:	
1. Definition of Separately Used and Inhabited Part (SUIP) of a rating unit (page 36 of the Consultation Document)	
2. Stormwater rating changes (page 36 of the Consultation Document)	

3. Fordell water supply rates (page 37 of the Consultation Document)	
4. Marybank wastewater rates (page 37 of the Consultation Document)	
5. Stormwater separation loans (page 37 of the Consultation Document)	
KEEPING YOU UP TO DATE PROJECT DEVELOPMENTS	
Community housing \$4.2M across years 2 and 3 as a placeholder for potential work in the housing space. (page 26 of the Consultation Document)	
Town Centre Regeneration An increase of \$3.3M across the 10 year period is budgeted for town centre regeneration with variable spend occurring throughout the 10 years. (page 26 of the Consultation Document)	
Do you have any further comments to make?	I reckon use the money to make an extension out back of east bowl behind the half pipe and fix everything up and make it brand new and add a new bowl with a pool coping

Do you have any further comments to make?	Skate bowl would be great for everyone. The castlecliff one has had it. Whanganui east doesn't extend our skater bmx talent.
