## **Introduction**

This document sets out the Governance Structure by which Whanganui District Council:

- carries out its governance functions; and
- formally delegates its powers and responsibilities to committees and other decision-making bodies.

The Governance Structure is developed in accordance with the provisions and requirements of the Local Government Act 2002 and is based on the following governance principles:

- That there is as few governance levels as possible to enable efficient and effective exercise of delegated functions and powers.
- That the business of Council is transacted transparently and inclusively, whenever possible.
- That decisions are made once, not twice. A decision made by a committee under delegation from the Council has the same effect as if it were made by the Council itself.
- That each committee's powers are restricted to the areas of responsibility of that committee.
- That the Council and all committees exercise their powers and functions in accordance with the Local Government Act 2002, other applicable legislation and the Standing Orders.
- That a committee is not obliged to exercise a power or function delegated to it; where appropriate the power or function can be referred back to the Council for decision in consultation with the Mayor.
- That all members are expected to attend the meetings for which they are appointed members.

The Governance Structure for Whanganui District Council is adopted at the beginning of each triennium. It sets out in full the delegations to the committees and other decision-making bodies, as well as Council's appointments to other organisations.

The Governance Structure may also be reviewed and amended by the Council as necessary throughout the triennium.

## **Ambiguity and Conflict**

For clarity, matters that are not delegated by the Council to a committee or another subordinate decision-making body, or to the Chief Executive or other Council officer, are to be determined by the Council.

In the event of uncertainty or dispute as to which committee is authorised to act in respect of a particular matter, due to ambiguity or conflict between the provisions of the Terms of Reference, the Chief Executive will prepare a written report on the matter for Council's consideration. The decision of Council will be final and binding.

## Interpretation

**Committee** includes, for the Council:

- a. A committee comprising all the members of the Council;
- b. A standing committee or special committee ;
- c. A joint committee appointed under clause 30 of Schedule 7 of the Local Government Act 2002;
- d. Any subcommittee of a committee described in items (a) (b), or (c) above.

### Quorum

The terms of reference for each committee contain the quorum required.

Where a committee contains members who are not elected representatives, those members are included in calculating the quorum and are counted towards the quorum when present. This reflects the expectation that appointed members will attend those committees to which they are appointed.

References to legislation in this Governance Structure includes amendments, re-enactments and substitutions, as well as any regulations made under that legislation.

## Principles

### Powers and delegation principles

- The Council and all committees exercise their powers and functions in accordance with the Local Government Act 2002, other applicable legislation and the Standing Orders
- There is clarity around scope and delegation of each Committee and each committee adheres to the agreed terms of reference
- A committee is not obliged to exercise a power or function delegated to it; where appropriate the power or function can be referred back to the Council for a decision, noting that this should be an exception not the norm.
- All Councillors should be involved in significant strategic and operational matters, but those matters not requiring the oversight of all Councillors should be delegated to smaller committees or other subordinate decision-makers
- All members are expected to attend the meetings for which they are appointed members
- Any member can attend any committee and have speaking rights even if they are not appointed to that committee

### Decision-making principles

- A decision made by a committee under delegation from the Council has the same effect as if it was made by the Council
- Decisions are driven by evidence-based decision-making and data
- Decisions are to be made once only, unless new information becomes available that fundamentally alters the basis on which the original decision was made.

- Council decision-making to be transparent
- Facilitate community participation where required

**Outcome focused principles**

- Clear line of sight to delivery of outcomes that impact across at least one of the 4 well-beings
- Implementation by management is able to be achieved efficiently and effectively with resourcing implications being well considered.
- Clear hand-over from governance to management and reporting back mechanism from management to governance
- Strong mechanism for management execution of projects and initiatives
- Emphasis on strong debate, views and perspectives from all around committee table

## Iwi Working Parties and Co-Governance Bodies

Whanganui District Council has entered into agreements with various local runanga and iwi groups in the district and may enter into additional agreements in future. These agreements sometimes create working parties which provide an opportunity for collaboration and information sharing between the Council and representatives of their agreement partners.

These groups will operate under the terms defined in the relevant relationship agreements.

When entering the Treaty of Waitangi settlements, the Crown sometimes establishes governance bodies, to which Council may have appointment rights. These bodies determine their own processes and procedures.
